Rick,

Thanks for the information. I'll notify the laboratory and provide them the address for the hardcopy deliverables.

Since ORD data packages will be sent to various addresses depending on the project, SMO will need to be provided with the specific address for each Case so that the information may be passed along to the scheduled laboratories. I think the most effective approach would be for the person entering the project into ASR to list the address to which the deliverables should be sent in the Comments Section of the ASR as Cases are submitted. That way as soon as Cases are scheduled, SMO can provide the address information to the laboratory.

Please let me know if you have any questions.

Thanks,

MARGARET JAROSZ

Environmental Coordinator-Regions 1, 4, ORD and GLNPO

Hi Margaret,

Hard copy for this job should be sent to me at:

Rick Wilkin  
US EPA  
919 Kerr Research Drive  
Ada, OK 74820

580-436-8874

Going forward, hard copies will go to different addresses for different data packages. How can we best provide this information?

Thanks,  
Rick

Subject: Hardcopy Deliverable Address for Case 42753

Good afternoon,

CHEM contacted SMO inquiring about where they should send the hardcopy deliverable for Case 42753. They did not receive an address to which it should be sent. Please let me know so that I may provide the address to the laboratory.

Going forward, will the hardcopy deliverables for all future Cases be sent to one specific address, and if so, what is the address? Or will the recipient address vary from Case to Case? If the address will be different for each Case, please let me know so that we can discuss the best way to proceed. In my opinion, the most effective approach would be for the person entering the Case into ASR to list the address to which the hardcopy deliverables should be sent in the Comments Section of the ASR as Cases are submitted.

Please let me know if you have any questions.

Thanks,
